

Safety Gate: Rapid Alert System for dangerous non-food products

Alert number	A12/01206/20
Category	Motor vehicles
Type of alert	Products with serious risks
Product user	Consumer
Product	Passenger car
Brand	Mercedes-Benz
Name	A-Class
Type / number of model	Type-approval number: e1*2007/46*1829*01-03, Type: F2A
Company recall code	8391001
Production dates	The affected vehicles were manufactured between 11 September 2017 and 10 February 2019.
OECD Portal Category	77000000 - Automotive
Description	Model series: BR 177
Country of origin	Germany
Alert submitted by	Germany
Counterfeit *	NO
Risk type	Injuries
Technical defect	The condensed water drainage hose of the air-conditioning system may not be properly fitted. In such a case condensed water from the air conditioning system could enter the passenger compartment of the vehicle, ending up in the footwells of the driver and passenger side and in the central tunnel. As a result, any electrical components installed there could be corroded and/or subjected to short circuits or leakage currents. As a consequence, the SRS control unit could stop working, the vehicle may fail to start, the engine emergency run could be activated while driving, and the functioning of other components (e.g. the fuel pump, automatic/manual emergency call) could be adversely affected. /
Risk	
Measures adopted by notifying country	Recall of the product from end users
Products were found and measures were taken also in	Greece
