

## URGENT SAFETY INSTRUCTION

**Voluntary security-related recall of passenger car steel wheel for vehicles of VW-group, Part number 7755 (Production date 17/18):  
Wheels may not be used or passed on anymore!**

Alcar Wheels GmbH sets highest values on the quality and security of its products. Therefore we want to inform you about our voluntary security-related action referring to the above mentioned wheels.

We determined, that a material defect at wheels from one production lot might cause a sudden air leak.

This could lead to a restricted control of the car and hence resulting into an accident. The relevant cars of VW Group are equipped as standard with a Tyre Pressure Monitoring System. In consequence of road tests performed by us we cannot exclude that a driver warning will not take place on time.

To comply with our responsibility for you as our customer, we voluntarily and as a matter of precaution recall the affected wheels and replace them – free of charge – against new wheels.

We kindly ask you to check, if your wheels are affected by following the instructions in our image description or our videoclip under

<https://www.youtube.com/embed/SQrehinzcCs?rel=0>.

If this applies, you **may not use the car with the affected wheels anymore** or **pass the affected wheels to anyone else**. Please urgently visit the **next garage**. If you have already passed on the wheels, please make sure to inform the recipient or the current user of the wheels and also hand over this safety instruction.

We apologize for the inconveniences and thank you in advance for your understanding.

### ALCAR WHEELS GmbH

Leobersdorfer Straße 24, 2552 Hirtenberg, Austria, Tel.: +43/2256/801 -0, info@alcar-wheels.com, www.alcar-wheels.com
